The strongest people are not those who show strength in front of the world but those who fight and win battles that others do not know anything about .

Be true to yourself every day. Look in the mirror and be proud of who you see. Stay honest and act with integrity. Every day is a chance to shape your story...

After growing up, failures become the ink that writes the script of experience. Failures teach us important lessons. Each time things don't go well, we learn something valuable. It's like a guide leading us to become stronger and more successful in the future.

FATE

When we get something then we say this is my Fate
When we lose something, we blame it all
on Fate

Some people believe in Fate.
And some don't

But what is Fate?

Fate is nothing but a person's destiny. It
is a set of events that is outside of a
person's control

That is why Fate is dangerous because we
Don't know what our Fate or we don't
know how to control it.

There will be a lot of times when things which were going
smoothly turn into a complete disaster.

That is what Fate is.

Most of the time you will not get what you want. But that
doesn't mean you will give up on everything and sit idle and
start blaming it all on Fate.

All you have to do is keep that small Ray of hope in your
heart and start working harder to achieve that success.

Cause we don't know what our Fate is.

TIME

Time is slow when you wait!
Time is fast when you are late!
Time is deadly when you are sad!
Time is short when you are all happy!
Time is endless when you are in pain!
Time is long when you feel bored!
Every time, time is determined by your feeling,
And your psychological conditions!
And not by clock,
So, Have a nice time always.
